

AMENDMENTS TO THE CLAIMS

AI  
1-10 (cancelled)

11. (New) An animal scent based composition, comprising:

a granular, dry form natural carrier material; and

an animal product mixed with said carrier material.

12. (New) A composition according to claim 11, said composition being in a dry form, said composition comprising 70-99.7% carrier material by weight and 0.3-30% animal product by weight.

13. (New) A composition according to claim 12, said composition comprising approximately 96% carrier material by weight and 6% animal product by weight.

14. (New) A composition according to claim 11, said carrier material comprising a mixture of two or more granular, dry form natural carrier materials.

15. (New) A composition according to claim 11, said animal product comprising a mixture of two or more animal products.

16 (New) A composition according to claim 11, said composition being in a liquid form, said composition comprising 0.001%-69% carrier material by weight and 31-99.999% animal product by weight.

17. (New) A composition according to claim 16, said composition comprising approximately 15% carrier material by weight and approximately 85% animal product by weight.

18. (New) A composition according to claim 11, said carrier material comprising calcium carbonate.

19. (New) A composition according to claim 18, said animal product comprising urine.

20. (New) A composition according to claim 11, said carrier material comprising at least one of calcium carbonate, magnesium carbonate, vermiculite, sawdust, small particles of wood, potting soil, peat moss, topsoil, limestone, small particles of rock, sand, sodium bicarbonate, activated charcoal, crushed seashells, silica, psyllium husks, wax, corn starch, salt, clay, talc, magnesium stearate, natural sponge, seeds, grains, ground corn cob, gypsum, straw, hay, and mulch.

21. (New) A composition according to claim 11, said animal product comprising at least one of animal urine, animal feces and animal glandular secretions.

22. (New) A composition according to claim 11, said carrier material comprising a zeolite material.

23. (New) A composition according to claim 22, said zeolite material comprising clinoptilolite.

24. (New) A composition according to claim 22, said carrier material further comprising a second granular, dry form natural carrier material mixed with said zeolite material.

25. (New) A composition according to claim 24, said zeolite material being 30-60% by weight of said carrier material.

26. (New) A composition according to claim 25, said second granular, dry form natural carrier material comprising calcium carbonate.

27. (New) A composition according to claim 26, said zeolite material being approximately 30% by weight of said carrier material, said calcium carbonate being approximately 70% by weight of said carrier material, said carrier material being 70-95% by weight of said composition, and said animal product being 5-30% by weight of said composition.

28. (New) A composition according to claim 14, said carrier material being approximately 50% calcium carbonate by weight and approximately 50% vermiculite by weight, said carrier material being approximately 80% by weight of said composition and said

animal product being approximately 20% by weight of said composition.
